CAPITALISATION EVENT

AGENDA

29 OCTOBER 2013

LE MERIDIEN HOTEL

QUEEN NOOR STREET, SHMEISANI, AMMAN

Cluster on Environmental Challenges:

- Water Management
- Waste Treatment and Recycling
- Renewable Energy

08:00 - 9:00 Registration

Opening – Plenary Session

09:00 - 9:15 Welcome by Institutional representatives

09:15 - 9:30 Programme state of play and objectives of the workshop

09:30 - 9:40 Introduction and inputs for parallel sessions

Parallel thematic sessions. One for each topic

First session

The aim of this session is to underline the contribution of the projects in the current programme framework by presenting their most relevant experiences both in terms of promising “good practices”, if any and “challenges”. Details on the concepts of “good practice” and “challenge” will be shared at the beginning of each panel.

09:40 - 10:00 Getting started

Ice-breaking session to help participants get to know one another, relax and feel at ease

10:00 - 11:20 Taking stock: promising “good practices” and “challenges”

The facilitator will ask each project to present and introduce at least: one promising “good practice” and one “challenge” concerning the thematic sector

11:20 - 11:50 Coffee break - time to network

Second session

In this session, we will focus the discussion on the Medium Term's Needs (MTNs) that were considered as most relevant by the majority of the ENPI CBC MED projects. The projects will be asked to reflect on how their identified practices and challenges are connected to the 5 MTNs.

- 11:50 - 13:30 Visioning the future
The facilitator introduces the discussion by reading and indicating the 5 MTNs displayed on the wall. The identified promising "good practice" and "challenges" will then be posted, analysed and discussed
- 13:30 - 14:30 *Lunch break*

Third session

All the external actors/institutions attending will be invited to provide their views on the emerging "good practices" and "challenges" highlighted in the previous session to foster cross-fertilisation, synergies and impact. In this session, we will also understand how stakeholders are likely to position amongst the 5 MTNs.

- 14:30 - 15:30 Brainstorming with external actors
The facilitator asks the external stakeholders to outline in which of the 5 MTNs they play a significant role and how they can develop synergies and complementarities with ongoing projects
- 15:30 - 16:00 *Coffee/tea break*

Closing – Plenary Session

- 16:00 - 16:30 Wrap-up Session
Results and conclusions of each group will be presented by a rapporteur
- 16:30 Closing
