Buy less, Separate at source and Recycle
Conserve natural resources. We can make it happen!

The project SCOW is implemented under the ENPI CBC Mediterranean Sea Basin Programme (www.enpicbmed.eu). Its total budget is 4.97 million Euros and it is financed, for an amount of 4.47 million Euros (90%), by the European Union through the European Neighbourhood and Partnership Instrument. The ENPI CBC Med Programme aims at reinforcing cooperation between the European Union and partner countries regions placed along the shores of the Mediterranean Sea.
